

PRODUCT DATA SHEET

PRODUCT: EASTTOPET 800 - BARIUM PETROLEUM SULPHONATE

INTRODUCTION: EASTTO PET 800 is a high molecular weight Barium Petroleum Sulphonate. It is designed to provide detergency and rust protection in the formulation of industrial lubricating oils, Greases, Hydraulic fluids and various other protective compounds. With its non-staining characteristics this product is ideally suited for formulations that call for a high level of rust protection.

APPLICATION: It is used as an excellent Corrosion Inhibitor & recommended for manufacture of Surface active agents, Metal Working Fluids, Rust preventive oils, Wire rope lubricants, Degreasing agents, Protective coating films, High resistance to humidity and Salt Water Spray Test, Detergent in Fuel Additives. This product is soluble in oil and solvents.

Rust Preventives gives better protective coating films.

PERFORMANCE LEVEL: Proprietary product

TYPICAL PROPERTIES:

| CHARACTERISTICS | EASTOPET 800 |
|---------------------------------------------|---------------------------|
| Appearance | Dark Brown Viscous Liquid |
| Active Matter (as Barium Sulphonate, Wt. %) | 48 |
| Barium, Wt. % | 6 |
| Flash Point, COC, ° C, Min. | 140 |
| Molecular Weight | 1100 |

PACKING: 200Kgs. M.S. Barrels

Date of Issue : 20.12.2014

Date of Revision: 06.03.2017

PDS No. 09.20.01

These Characteristics are typical of current production while future production will confirm to **EASTERN PETROLEUM PVT. LTD.** Specification variation in these characteristics may occur.
