GRADE: 32, 46, 57, 68 & 76.

### INTRODUCTION:

EASTTO VACUUM PUMP OILS are specially developed with highly refined base stock having low vapour pressure, low pour point, high viscosity index and high flash point that enable the vacuum pumps to operate with optimum performance.

**APPLICATION :** EASTTO VACUUM PUMP OILS are recommended for high vacuum producing diffusion pumps. Because of their low vapour pressure and high thermal stability, they meet the requirement of high vacuum producing diffusion pumps.
